The right printer for you...

Whether you're a photo-enthusiast, professional photographer, or looking for a flexible printer for everyday printing, Epson has the answer. Our products combine technology with ease of use to enhance your creativity, efficiency and fun.

For professional photographers: Epson UltraChrome™ inks

Produce exceptional quality prints in black and white or colour, up to A3+ size. Perfect for serious amateurs or professionals, products using Epson UltraChrome™ inks produce outstanding glossy or matte prints for display or resale.

EPSON ULTRACHROME HI-GLOSS INK

EPSON ULTRACHROME K3 INK

Exclusive Epson UltraChrome™ K3 photographic ink system

For photo-enthusiasts: Epson Claria inks

Perfect for those who want a premium quality printer to get the most out of their photos. Create glossy photos in crisp detail from passport size up to A4 enlargements. Products using Epson Claria inks are also ideal for general printing such as web downloads and projects.

Claria Photographic Ink

For everyday printing: Epson DURABrite™ inks

Products using Epson DURABrite™ inks are ideal for all family printing needs from schoolwork and letters to web pages. You can produce glossy lab–quality photos or great quality, water resistant, smudge free printouts even on plain paper.

Revolutionary Pigment Ink DURABrite Ultra INK

High quality low cost printing with individual ink cartridges

K C M Y LC LM LK LLK

8 single ink cartridge system including light cyan and light magenta for superior clarity, detail and gradation.
In the K3 ink systems, the additional black inks (light black, light light black, photo black and matte black) produce market leading black and white prints.

K C M Y LC LM

6 single ink cartridge system designed for outstanding quality photos. The additional light cyan and light magenta inks provide greater gradation and the enhanced quality is particularly noticeable in skin tones and areas of detail.

K C M Y

4 single ink cartridge system for great value all round printing of documents and photos.

Resolution

The higher the resolution, the more ink dots per inch (dpi) are placed on the page, resulting in a finer detailed, better quality print.

More colour definition, detail and higher quality due to 5760 dpi.

Longevity

Your precious memories won't fade with professional quality photos that will last for 200 years in your photo album*.

*200 years using Claria ink

Finish

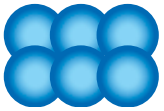
Epson's specially formulated papers and inks work together for an unbeatable finish. Choose from a wide selection of high gloss, matte and textured paper in variety of paper sizes.

Outstanding detail and quality

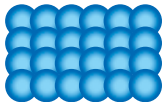
Epson's exclusive Variable-Size Droplet Technology combines quality with speed using a range of different droplet sizes from as small as 1.5pl (picolitre).

Small dots are used for areas requiring detail such as facial features. Large dots are used for areas of solid colour such as the sky areas.

Actual 3pl dot size compared to human hair



Large dots – speed



Small dots – detail

Best quality

Achieve the best 10x15cm (6x4") photo by using a 3 mega pixel camera and a 5 mega pixel camera or higher for A4 enlargements.

Dry instantly

Epson QuickDry™ technology delivers instantly dry photos which you can touch straight away.

Epson inkjet printers

Epson inkjet printers are packed with the latest features. These include PC-free photo printing from memory cards and direct printing onto CD and DVDs. Epson produces high quality photos and prints without compromise.

Zoom and crop your photos without a PC.

Print direct from your memory cards (SD, compact flash, etc) so there is no need to connect a PC.

Produce hassle free photos in your own home – print borderless photos from 6 x 4" size using Epson photo paper.

Print photos and text direct to printable CD and DVD discs to label and personalise your images, music or movies.

£ Low

Get more value – only replace the colour you need to with individual ink cartridges from only £6.99.

Save even more with Epson ink multipacks.

3.5inch LCD

Preview and print your photos without using a PC on models with an LCD screen.

PictBridge

PictBridge is a compatible system that enables your digital camera (PictBridge enabled) to connect to the printer and print direct using the camera screen to select photos to print.

Model featured is the Epson Stylus Photo R360 photo printer

Epson depth and quality:

4 6 8

Number of ink tanks – The higher the number of ink tanks in the printer = improved depth and gradient of colour to give increased level of detail

Epson Creativity Suite – This software enables you to edit your photos, remove red eye, etc, to improve the quality of your prints.

Epson All-in-One – print, scan and copy

If you are looking for more than just a printer, the Epson All-in-One range is the answer. It's so simple to scan and enhance images at the touch of a button, photocopy projects, and of course print high-quality photos.

2.5inch LCD

Preview and print your photos without using a PC on models with an LCD monitor.

Zoom and crop your photos without a PC.

Print borderless photos from 6x4" up to A4 size.

PictBridge is a compatible system that enables your digital camera (PictBridge enabled) to connect to the printer and print direct using the camera screen to select photos to print.

Print photos and text direct to printable CD and DVD discs to label and personalise your images, music or movies.

£ Low

High quality, low cost printing with individual ink cartridges.

Save even more with Epson ink multipacks.

Produce multiple copies at a touch of a button without the need for a PC.

OCR

Optical Character Recognition software – scan text documents straight into your word processing documents and edit without re-typing.

dpi

The detail captured by scanners is measured in dpi – dots per inch. The higher the dpi, the more detail is captured from your image.

Enhance your photos

Enhance your photos at the touch of a button with the latest PhotoEnhance software that automatically detects the type of photo you have taken and applies corrections to enhance your photo.

Before After

Dust removal – eliminates annoying 'dust' from positive or negative film

Before After

Color restoration – restores faded or discoloured images

Weight: 102gsm
Finish: Matte
Sizes: A4 / A3 / A3+ / A2

Bright White Inkjet Paper
This bright white, non-coated paper is brilliant for printing web pages, memos, graphics and other text documents.

Weight: 90gsm
Finish: Matte
Size: A4

* Ultra Glossy – Not compatible with the Epson Stylus Photo R2400
** Epson Archival Matte Paper only compatible with Epson Stylus Photo R1800/R2400

Epson scanners

The Epson scanner range includes extensive easy-to-use features to make the most of your images. You can scan in photo prints, slides and negatives to store onto CD, email or print for your friends and family to enjoy. With Epson's Dust and Scratch removal software, you can bring your old prints back to life and keep them forever.

Scan in your 35mm film strips direct with the automatic feeder on the Epson Perfection V350.

Epson Easy Photofix software for dust removal and colour correction.

OCR software to scan and edit text on your PC.

The detail captured by scanners is measured in dpi – dots per inch. The higher the dpi, the more image detail is captured.

Portrait or landscape opening on Epson Perfection V100 and Perfection V350 models.

FireWire connection for faster scanning. Available on the Perfection 4990 Photo, V700 Photo & V750 Pro

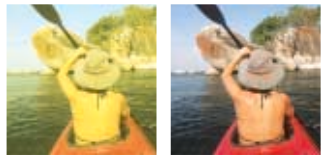
Dual lens technology features 2 lenses with different resolutions. The scanner automatically selects the best setting for your image whether you are scanning film or A4 text. Available on the Perfection V750 Pro & V700 Photo.

Easy to use shortcut buttons so you can scan to email or PDF, copy or just scan with the 'start' button.

Scan your old films and negatives using built in film holders. It's so easy to re-print your favourite photos and archive them onto your PC, and email old photos to your friends and family to share the memories.

Enhance your photos

– use this Scanfix software



Before After

Restore faded images and more with Scanfix software included with all Epson scanners.

Digital Ice detects defects such as scratches and dust and corrects it without softening or blurring the image.

Before After

Epson multimedia storage viewers

These compact, stylish machines are a great way to store and view large quantities of digital images as well as well as play your favourite music and movies. They are the ideal companion for photo enthusiasts and professionals to back-up, archive and view images just about anywhere.

RAW

Viewers support RAW format images files from all the major digital SLR camera manufactures.

4 inch LCD

Large 4" LCD colour screen enables accurate viewing and selection of images. Photo Fine Ultra 212ppi (pixels per inch) resolution for incredible detail.

Excellent quality video playback is achieved using the high storage capacity, brilliant screen, headphones and support for a huge range of video file formats. Built-in software enables files to be automatically recognised and converted to be viewed.

These models support WMA, MP3 and AAC music formats and come complete with headphones with remote control so you can store and play your music collection.

Image rating – A rating function enables you to edit a large number of photos quickly and easily. Simply assign ratings from 1-5 based on the quality and usability of photos to help reduce the number of photos for final editing.

Compact flash and SD memory card slots.

Zoom – The new zoom in and zoom out button makes it easy to zoom up to 100% or even 400% on some image formats.

2.0

Print your photos to any compatible Epson photo printer via USB 2.0 DIRECT PRINT.

Histogram function to help assess image quality.

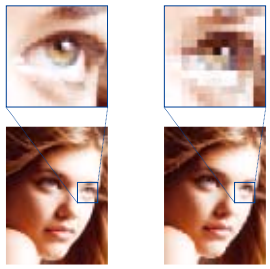
3

Reliable battery life – up to 3 hours of continuous slideshow viewing.

Superior image clarity

Epson Multimedia Storage Viewers

Standard LCD



212ppi

100ppi

Show off your photo collections on the stunning quality 4.0" Photo Fine Ultra screen. This is the world's first 4-colour filter screen to displays images in amazing, crystal clear detail.

Assess the quality of your images by using the 'Metadata' function to easily display information including file name, model and exposure information, as well as the image histogram.
An exposure warning function provides a visual alert indicating poorly exposed highlight photos.

Epson P-5000

Laser printers

Epson personal laser printers provide excellent quality colour and mono printing support to a wide range of users.

Our home and home office laser printers and business printing solutions can make your life easier, by combining versatility, reliability and cost-efficiency with excellent quality output, high print speeds and simple operation. Whether you need a hard working mono laser printer that won't let you down or want to add vibrant colour to your business materials – we have the right solution for you.

Fast print speeds up to 35ppm are combined with print sizes from A4 to A3 and a wide choice of connections. These include standard Hi-Speed USB (2.0 compatible), and a range of optional solutions for networks including the EpsonNet 10/100 Base Tx Ethernet interface, and EpsonNet 802.11b/g wireless and 10/100 Tx Ethernet Interfaces.

Epson AcuLasers give excellent print support to all your printing needs. And for a complete office solution where space is at a premium, why not view the AcuLaser CX11NF series? You can print (A4), copy, scan and fax from one small machine!

Home cinema multimedia projectors

Epson multimedia projectors give you the power to turn any room into a home cinema. You can watch the latest DVDs, play games, or view photos.

They are easy to set up and use, with a wide variety of features designed to maximise image quality whatever you are watching. Every Epson projector uses acclaimed 3LCD technologies to produce brighter, clearer images, rich colour and smooth video playback.

Epson EMP-TW20 Home cinema projector

Award-winning Epson technology

Don't just take our word for it – the Epson range has won acclaim from a variety of experts and photography magazines.

Gear of the Year
Epson products have won a number coveted 'Gear of the Year' awards. These awards are voted for by the readers of Practical Photography and Digital Photo magazines. These magazines are the most read photographic magazines in the UK with a combined readership of nearly 100,000 people a month:

- Epson Stylus Photo R800 inkjet printer, Best Printer (November 2005)
- Epson Perfection 4990 scanner, Best Scanner (November 2005)

Epson Stylus Photo R800 inkjet printer **Best Printer 2005**

Epson Perfection 4990 Photo **Best Flatbed Scanner 2005**

Feature Products
Epson has won three prestigious accolades for its photo printing and scanning technology at the TIPA Awards 2006.

Annual TIPA Awards
The Technical Image Press Association (TIPA) Awards are recognised as the Oscars of the industry. TIPA ensures that only a select few products are chosen which is why they are so prestigious.

Epson was awarded three awards in its annual review of the best products in the digital arena 2006.

- Epson Perfection V750 Pro scanner – 'Best Flatbed Photo Scanner in Europe 2006'
- The Epson Stylus Photo RX640 – 'Best A4 Multifunction Photo Printer in Europe 2006'
- The Epson UltraChrome K3 ink – 'Best Printing Technology in Europe 2006'

Epson Perfection V750 Pro scanner **Best Flatbed Photo Scanner in Europe 2006**

Epson Stylus Photo RX640 **Best A4 Multifunction Photo Printer in Europe 2006**

Best Printing Technology in Europe 2006

Epson Stylus Photo R2400
Winner of the prestigious Amateur Photographer Awards 'Best Printer' and 'Best Overall Product' award for 2006. This is the first time in the magazine's history that a printer has won the overall prize.

It's not just our printers that have won awards. Epson's Premium Glossy Photo Paper won the 'Editors Choice' award in the November 2005 issue of PCW Magazine.
